

The case

Solve the puzzle to find out who is the criminal!

Yesterday there was a concert at Rogers Centre. Since last week all the tickets were sold out. The show was great but by 9 pm there was no more alcohol, so some visitors began to drift away.

A group of friends said goodbye to Joanne when she decided to leave. That was the last time anyone ever saw her. Joanne was a beautiful young woman who worked as a nurse. Her body was found near the bathroom before the end of the concert.

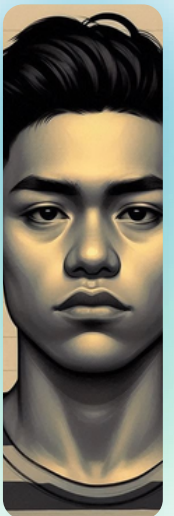

After examining the body, the detective has three suspects trapped in the stadium. Here is the information you have about them and their alleged alibis:

John, Joanne's brother.
28 years old, Doctor.
*"When she said 'goodbye',
I went to the bathroom."*

Lisa, 23 years old, Accountant.
*"I was ordering one more
beer at the bar on level C."*

Bob Johnson, Dancer.
Married, 2 kids.
*"I was talking to a girl
I had just met."*

Who killed Joanne?
